Qualitative Factors: Some of the qualitative factors and our strengths which form the basis for the Issue Price are:

Integrated and well-established manufacturing setup

We currently operate 2 (two) integrated steel manufacturing plants, in Bilaspur and Raipur, Chhattisgarh. The integrated nature of our manufacturing plants has resulted in the control over all aspects of our operations (with the exception of sourcing of primary raw materials) as well as operating margins, thereby enabling us to focus more on quality and create multiple points of sale across the steel value chain. For further details, see "Our Business – Our Strengths – **"Integrated and well-established manufacturing setup"** on page 198 of the RHP.

Manufacturing plants are strategically located, supported by robust architecture, leading to cost efficiencies and a sizable supply chain.

Our two manufacturing plants are strategically located at Bilaspur and Raipur within the mineral rich State of Chhattisgarh and in close proximity to the mineral belt in eastern India. Our presence in these locations allows us to have easy access to raw materials and end users both which helps us overcome significant entry barriers in comparison with our competitors. We believe this lowers our transportation costs and provides us with logistics management and cost benefits, thereby improving our operating margins. For further details, see "Our Business – Our Strengths – **"Manufacturing plants are strategically located, supported by robust architecture, leading to cost efficiencies and a sizable supply chain"** on page 199 of the RHP.
